Creating unique personal spaces to reflect individual personalities

in my home...

From vibrant neon pinks to striking prints, beloved cartoon characters to favorite cities - each individual supported by Home From Home Care has their own distinct identity, and their living spaces are designed to reflect this.

From experience, we know that individuals flourish in positive environments so we work carefully to create and update spaces that do more than simply meet their needs and support specialist care - they celebrate each individual's unique style and preferences.

Everyone has their own single bedroom apartment with an ensuite and a living space that can include a kitchen. These personal spaces are linked to generous communal areas that encourage connection and social interaction, as appropriate.

When necessary modifications are required to accommodate ongoing needs - whether that's ceiling tracks for mobility equipment, climate control systems, or specialised acoustic treatments - we integrate these elements thoughtfully into the design.

Working closely with specialist clinicians such as Occupational Therapists, apartments are adapted in a design-sensitive manner for complex health and mental health, where individuals might need a wet room or a bath; whiterock, painted walls or wallpaper, app controlled water and electrics; an integrated bed or a freestanding one; hoists & tracking; a safe area or a garden.

Bathrooms & wetrooms are bright and colourful, incorporating adaptations to meet each individual's needs. In one case, an individual was assessed to need a wetroom due to health issues - but as the sensory aspect of having their hair washed was an important part of their quality of life, we added a backwash sink (below).

“ Nothing is too much trouble – if a bath needs ripping out because an individual's needs have changed, we do it. If an air conditioning unit needs fitting because their health needs require it, we do it. If an individual has broken a piece of furniture while displaying behaviours, we replace it. Hugo de Savary ”

“ As a mother, I take particular pride and pleasure when I see my daughter's room with its vibrant colours and choice of fabric – a real reminder that she is an adult with her own taste in making her own space very much hers. A parent ”

YEE-HAW! CELEBRATING COWBOY-STYLE!

This year's May Ball was a wonderful Wild West celebration, with colleagues, individuals and their families welcomed through the saloon doors for a fun-packed party!

Wagons, wanted posters, straw bales and cacti filled the EXO Centre at the Lincolnshire Showground, transporting guests to the ranch!

With line-dancing and gold panning, everyone got into the Wild West spirit, with 374 partygoers enjoying the music, food and festivities.

Activity Hub stations were buzzing with 'make your own' sheriff badges, neckerchiefs and cactus crafts, while Animals UK brought snakes, lizards and spiders for incredible animal handling experiences.

GRILL & GROOVE... A SUMMER SOCIAL!

This summer, one of the guys wanted to host a 'Grill & Groove' party for friends – tasty BBQ food with games, bouncy castle and a disco!

In 'MySay' meetings with his support team, his plans came together. He went on shopping trips to the butcher and supermarket to buy the food and drinks, and also helped to prepare everything on the day.

Individuals across Home From Home Care joined together for a fantastic summer party – sharing an amazing BBQ, delicious Eton Mess followed by a boogie and lots of fun in the sun!
